

‡LIVEBEYOND

Transforming Lives through Maternal & Child Health

Celebrating 20 Years of Impact and
the Journey Ahead

*Providing healthcare, nutrition, and education to women and
children in underserved communities.*

Our Mission

LiveBeyond is a faith-based nonprofit organization committed to providing healthcare, nutrition, and education to women and children in underserved communities. Inspired by faith and driven by compassion, we serve to create healthier, thriving futures for mothers and children.

Over the past 20 years, LiveBeyond has operated internationally to advance this mission, most notably focusing on reducing maternal and child mortality in Haiti through a comprehensive community health model.

More recently, with the support of both Israeli and Palestinian governments, LiveBeyond has expanded to provide compassionate care, therapy, and education for children and families affected by disability in the Middle East.

As we celebrate our 20-year anniversary, we are eager to continue this expansion to new regions. In 2025, we plan to expand our maternal and child health services to Kenya, Uganda, Rwanda, and India.

Celebrating 20 Years of Service

LiveBeyond's initial focus began with disaster relief efforts and has grown into a global mission to improve maternal and child health in underserved communities around the world.

Highlights of the Past 20 Years

2005-2010 LiveBeyond provided disaster relief & medical care nationally and internationally.

- Gulf Coast United States - Hurricane Katrina
- Honduras - Flooding from tropical storms
- Mozambique - Zambezi River flooding
- Ghana - Lake Volta Medical Clinic

2010-2015 LiveBeyond established maternal and child health programs in Haiti.

- Responded to the 2010 Earthquake in Port-au-Prince, Haiti
- Purified local water sources
- Built the Maternal Health Clinic
- Started the Community Healthcare Worker Program

2015-2024 LiveBeyond focused on expanding its community health model.

- Created the LiveBeyond Electronic Health Record
- Provided meals in local schools to 7,000+ children each weekday
- Launched our child disabilities program in Israel
- Provided nutritional support to those affected by the war in Israel

2025 Expanding maternal and child health services to new countries

Why LiveBeyond is Expanding

LiveBeyond has achieved incredible success in Haiti, where maternal mortality has been reduced by nearly **75%** and child mortality by **52%** in our rural target area of Thomazeau, Haiti.

This was accomplished through a proven, comprehensive model that integrates maternal health education, nutritional support, and skilled community health services, all delivered with compassion and cultural sensitivity.

The challenges faced by mothers and children in many low- and middle-income countries mirror those we encountered in Haiti.

- In **Rwanda**, a 15-year-old girl has a **95% higher chance of dying from pregnancy or childbirth** than any other cause.
- In 2020, an estimated **47,000 mothers died during childbirth** in **India**.
- The World Health Organization estimates **200,000 women died in childbirth** in **Sub-Saharan Africa**.

Lack of access to healthcare, inadequate maternal health education, and widespread undernutrition are systemic issues causing preventable diseases and deaths that all too often devastate families and entire communities.

By leveraging our experiences and results in Haiti, we are uniquely positioned to replicate this model in other underserved countries like **Kenya, Uganda, Rwanda, and India**.

These countries face similarly high rates of maternal and child mortality. Our community health model has the potential to save countless lives and foster thriving communities for current and future generations.

“Before LiveBeyond, we didn’t have hope for safe pregnancies. Now, I can see my children grow and thrive.”

– Guerline, Maternal Health Program Member, Haiti

Expanding the Vision to New Locations

Our vision is to expand the life-saving impact of our Maternal Health Program to mothers and children in Kenya, Rwanda, Uganda, & India.

By replicating our successful community health initiatives in new locations, we can address the unique needs of each new community we serve. Expanding our efforts will enable us to reach more women and children, fostering healthy futures and creating a ripple effect of positive change.

OUR FOCUS AREAS

Haiti
Israel
Kenya

Uganda
Rwanda
India

How We Aim to Make an Impact in New Regions

Our expansion plan is driven by the commitment to create a profound and lasting impact on maternal and child health worldwide. Transforming maternal and child health through healthcare, nutrition, and education is what drives our vision to meet the following objectives.

Reduce Maternal and Child Mortality

Reduce maternal mortality by **75%** and child mortality by **50%** within five years by improving maternal, neonatal, and early childhood healthcare.

Increase Health Literacy

Educate 1,000 mothers annually at each location by focusing on prenatal care, nutrition, and hygiene using the LiveBeyond curriculum.

Increase Skilled Healthcare Workers

Train 75 nurses each year in maternal healthcare specialization through the LiveBeyond nursing curriculum.

Improve Healthcare through Technology

Fully integrate the LiveBeyond electronic health record system to ensure consistent, high-quality healthcare delivery.

Our Supporters Are Transforming Lives

Marie's Story: A Mother In Haiti Who Had No Hope

Marie is a courageous mother from rural Haiti who once faced overwhelming odds. Pregnant with her second child, she lived in a community where basic healthcare was out of reach, and every pregnancy carried a shadow of uncertainty. Without proper medical care or nutrition, Marie worried constantly about her health and the life of her new baby.

Then Marie found LiveBeyond. Through our maternal health program, Marie began attending weekly checkups with compassionate doctors and nurses who monitored her progress and addressed her concerns. She participated in the LiveBeyond maternal health curriculum,

where she learned how to care for herself during pregnancy and how to nurture her baby after birth. From nutrition and hygiene to breastfeeding and early childhood care, Marie was empowered with the tools and knowledge to give her baby the best start in life.

Today, Marie is raising an extraordinarily healthy baby. Her children are thriving, meeting developmental milestones, and growing strong. Marie's journey from fear to confidence is a testament to the life-changing impact of accessible healthcare and education.

Her story is a powerful reminder that when we invest in mothers, we build stronger, healthier futures for entire communities.

Support from LiveBeyond donors made this reality possible for Marie. Together, we can bring stories like Marie's to many more mothers in underserved communities around the world.

Join Us in Expanding Maternal and Child Health

LiveBeyond donors are a catalyst for global change by supporting our mission to revolutionize and expand maternal and child healthcare. Your involvement can save lives, uplift communities, and shape healthier futures.

Studies show that **every \$1 invested** in maternal, newborn, and child health **yields \$9 to \$11 in economic returns.**

Join us in making an impact.

- **\$100** provides meals and prenatal vitamins for a mother.
- **\$500** supplies educational materials for 50 women.
- **\$1,000** supports the training of a local health worker.
- **\$10,000** funds the salary of a maternal health nurse for a year.

Your support will help bring life-saving care to women and children in need.

Your donation is not just a contribution; it is a transformative action that creates lasting change. Engage with LiveBeyond to support a mission that empowers women, improves health outcomes, and strengthens communities. Together, we can make a world of difference. Be part of this life-changing expansion and help create a brighter, healthier future for families around the world.

Join Us in Changing Lives

It costs \$365,000 per year to fund a Maternal and Child Health Center, providing care for at least 1,000 women annually.

To expand to four new locations, we aim to raise \$1.5 million to reach an additional 4,000 women and their children.

Your support directly impacts mothers, children, and entire communities, providing life-saving healthcare and the tools for a healthier future.

**Together, we can make a
world of difference.**
